

# Custom Wedding Films

## DVD Description

All packages include professional, uncompromised editing of footage into a seamless, entertaining story of the wedding day. The format of the DVD depends on the wedding, but typically, the DVD is organized as follows:

### Introduction & Pre-Ceremony

Includes added music and photos, shots of bride and groom getting ready, the ceremony location, decorations, and guests arriving. 3 – 8 minutes.

### Ceremony

Includes the readings, vows, and all other important elements of the ceremony. 15 – 25 minutes.

### Post-Ceremony

Incorporates added music and includes highlights from all activities between the ceremony and reception including the receiving line, photo session, and cocktail hour. 3 – 8 minutes.

### Reception

Includes all the highlights of your reception including introductions, dancing, and speeches. 20 – 30 minutes.

### Highlights

This section is a chronological recap of the day set to music. Special effects such as black & white and film effects may be used on some shots, upon request. This section is also posted online. 3 – 5 minutes.

The typical length is about an hour. However, if you prefer a shorter or longer edit, we can do it! A short-form video is between 15 and 30 minutes, and is more condensed and fast-paced. A long-form video is between 30 and 120 minutes, and is more comprehensive. We offer the option of creating both long and short form versions of your video.
